

LIMESCALE: YOUR COFFEE MACHINE'S ENEMY!

The water we use every day is rich in calcium and magnesium, which determine how hard it is. Bringing the water to a temperature over 80° causes a physical reaction, crystallisation of the calcium and magnesium, which gives rise to the built up of limescale.

The harder the water is, the greater the threat. Accumulation of limescale over time deteriorates the hydraulic circuit and the heating elements of our devices, reducing their efficiency and increasing relative energy consumption.

TAKE CARE OF YOUR COFFEE MACHINE
WITH ORIGINAL DE'LONGHI ACCESSORIES!

Accessories for care and maintenance

ECODECALK

- High quality materials of vegetal origin make EcoDecalk a natural and efficient limescale remover.
- Its formula based on lactic acid has a low environmental impact.
- A good, regular removal of limescale from the machine keeps it efficient and avoids malfunction caused by limescale deposits.

TECHNICAL DATA	
Models	For all coffee machines
Content	1 bottle x 500 ml
Dimensions (lxwxh)	79 x 79 x 190 mm
Gross Weight	0,620 kg
Product code	5513296041 EU WEST - TR - AR - HE
Product code	5513296051 EU EAST - RU - ZH - KO
EAN code	8004399329492
Master	Minimum suggested order quantity 12 pieces (master)

Accessories for care and maintenance

ECODECALK MINI

- EcoDecalk Mini is made with materials of vegetal origin and the packaging is made from recycled materials (the paper used is FSC certified), making them low environmental impact.
- Laboratory tests show that EcoDecalk Mini is faster and more effective compared to conventional limescale removers.
- Convenient monodose vials of EcoDecalk Mini (2x100ml) make limescale removal easy, fast and without any waste.

TECHNICAL DATA	
Models	For all coffee machines
Content	2 single doses x 100 ml
Dimensions (lxwxh)	105 x 35 x 130 mm
Gross Weight	0,227 kg
Product code	5513296011 EU WEST - TR - AR - HE
Product code	5513296021 EU EAST - RU - ZH - KO
EAN code	8004399329485
Notes	Minimum suggested order quantity 18 pieces (master)

Accessories for care and maintenance

WATER FILTER

- Thanks to its innovative system, the water softener filter optimises water quality, ensuring you the intense flavour and natural aroma of good coffee.
- The filter protects the machine from excessive formation of lime deposits.
- Using the filter reduces the frequency of limescale removal by 20%, which however is necessary each time the indication appears on the display.

TECHNICAL DATA	
Models	For all coffee machines with filter
Content	1 filter
Dimensions (lxwxh)	61 x 44 x 165 mm
Gross weight	approximately 0,100 kg
Product code	5513292811
EAN code	8004399327252
Notes	Minimum suggested order quantity 10 pieces (master)
